

LCAP-UF BOGOTÁ

October 2021

ALCALDÍA MAYOR
DE BOGOTÁ D.C.

SECRETARÍA DE
MOVILIDAD

Low Carbon Action Plan for Urban Freight

Technological change

Enhance renewal towards a cleaner and more efficient fleet

Definition of urban freight transit

Permeate logistics planning with sustainability principles

Characterize and classify the cargo vehicle fleet

Communication, pedagogy and co-responsibility

Promote capacity building and stakeholder co-responsibility

Infrastructure

Optimize infrastructure use

Low Carbon Action Plan for Urban Freight

Challenges

- Define **budgets** for proposed actions
- Define **long-term goals** for projects that are in the structuring phase
- Define **impact goals** by logistics activities
- Prioritize long-term projects without **allocation of resources**.

Opportunities

- Application of **new tools** for emissions estimation
- Identification and **homogenization of projects** formulated in different public policies
- **Integration** of the local authorities with the private sector and associations

Thank you!
