

ICLEI Sustainable Mobility

An aerial photograph of the Shanghai skyline at dusk. The Oriental Pearl Tower is prominently featured in the center, with its distinctive spheres illuminated. The city is densely packed with skyscrapers, many of which have their lights on. The Huangpu River is visible in the foreground, with several bridges and buildings along its banks. The sky is a hazy blue, suggesting the time is either dawn or dusk.

ICLEI – Local Governments for Sustainability is a global network of more than 1,750 local and regional governments committed to sustainable urban development. Active in 100+ countries, we influence sustainability policy and drive local action for **low emission, nature-based, equitable, resilient and circular development.**

A wide-angle photograph of a busy city street, likely in Manchester, featuring a tram and many pedestrians. The street is lined with tall buildings, including a modern glass-fronted building on the left and older stone buildings on the right. A yellow tram with the number 3070 is visible in the middle ground, moving along the tracks. Numerous people are walking on the sidewalks, some towards the camera and others away. The sky is clear and blue. A semi-transparent dark grey box is overlaid on the left side of the image, containing white text.

EcoMobility gives priority to walking, cycling, public transport, shared mobility and light green vehicles.

It is integrated, socially inclusive and environmentally-friendly.

TUMI Inspiring Cities

A world map with a light gray background and white country borders. Numerous countries are labeled in a small, dark gray font. Yellow circular markers of varying sizes are placed on the map to indicate specific cities. The markers are distributed across all major continents: North America (USA, Mexico), South America (Colombia, Peru, Brazil, Bolivia, Chile, Argentina), Europe (UK, France, Spain, Italy, Turkey, etc.), Africa (Morocco, Tunisia, Egypt, etc.), Asia (India, China, Japan, etc.), and Australia. The text 'Our cities' is at the top left in large black font. Below it, a black box contains the text 'Working toward Sustainable mobility' in white. To the left of the map, a list of initiatives is shown in black text: 'EcoMobility Alliance', 'CitiesSHIFT', 'EcoLogistics', 'TUMI Challenge Winning Cities 2018', and 'TUMI Inspiring Cities'.

MEASUREMENT**

**KNOWLEDGE
PRODUCTS**

OUTREACH

What we care about

 **Kaohsiung Strategies**

 **Transport & Climate**

 **Transport & Health**

 **Walking & Cycling**

 **Public transport**

 **Emerging mobility trends**

 **Urban freight**

Together with cities and partners

Cities SHIFT

Capacity building and networking for climate - and people-friendly mobility

EcoLogistics

Low carbon freight for sustainable cities

TUMI

Transformative Urban Mobility Initiative

AfricanMobilityMonth

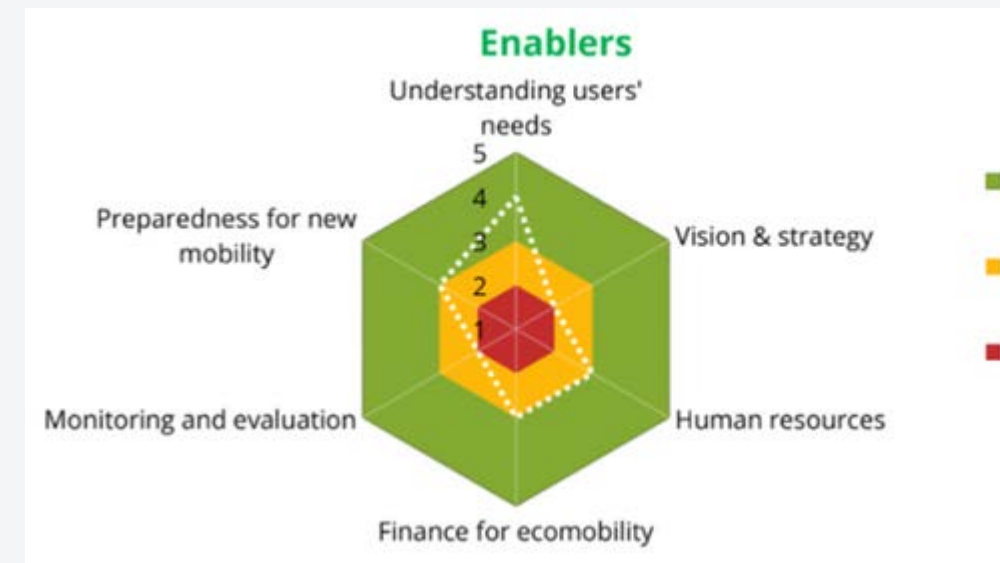

Lead the transition towards a zero emission and renewable energy transport future

HOW WE MAKE CHANGE HAPPEN

Stakeholder engagement

Public sector, private companies, civil societies

Capacity building

Performance analysis, assessment, pilots, implementations

Awareness

Policies, campaigns, EcoMobility World Festival and Congress

OUTREACH

-  Workshops
-  Speaking sessions
-  Consultation meetings

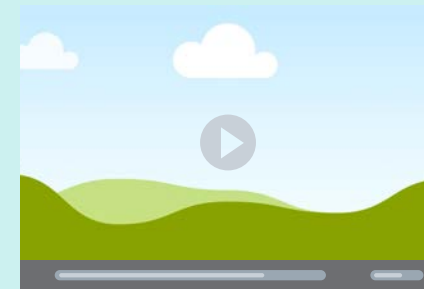

Available on
ecomobility.org

Knowledge Products

Case studies

8 sustainable urban mobility plans for people and/or goods
3 country profiles
1 brochure

Webinars

8 webinars on air quality, e-mobility, walking and cycling, SUMPs and low carbon freight

Media

4 featured ICLEI CityTalk posts
18 EcoMobility own blog posts
4 online or local media coverage
1 video clip
